MONTCLAIR

COMPOSER / ARTIST

ATMOSPHERIC MUSIC FOR
FILM, TELEVISION & VISUAL MEDIA

BIO

Montclair is a composer and artist creating atmospheric, cinematic music built around space, restraint, emotional ambiguity, and gradual evolution.

His work moves between dark electronic underscore, ambient world-building, restrained emotional drama, and atmospheric alternative music. Texture, silence, and subtle movement create environments that can live beneath - and become part of - a story.

His catalog includes instrumental compositions and vocal music, with a particular focus on mystery, introspection, psychological tension, discovery, and unfamiliar worlds.
